

IC Number File in the Cloud

International College, University of the Thai Chamber of Commerce

What we did in International College

- International College often changes the office design and moves around our computers which
 always impacts our Computer Server. We had a meeting and agreed that the topic of our KM this
 year is to find a new way to share our documents and the first document is "IC Number" that
 everyone has to use it everyday.
- Sharing and exchange information how to use IC Number file in OneDrive of the cloud Office 365 for International College staff.
- Test using IC Number in the Cloud by some of our staff to find out how it is better than using it in
 the server. Make sure that everyone know how to use it before the one in the server is deleted and
 start using the new way.
- Inform the staff to use the new system for IC Number via messenger app and follow up with them
 how they like using it comparing between the one in the OneDrive and the one in the server (IC
 DATA).
- Make a conclusion and post in UTCC KM System and International College website in the item of Knowledge Management Academic Year 2018

The Problems We Found When Sharing Files in the Computer Server

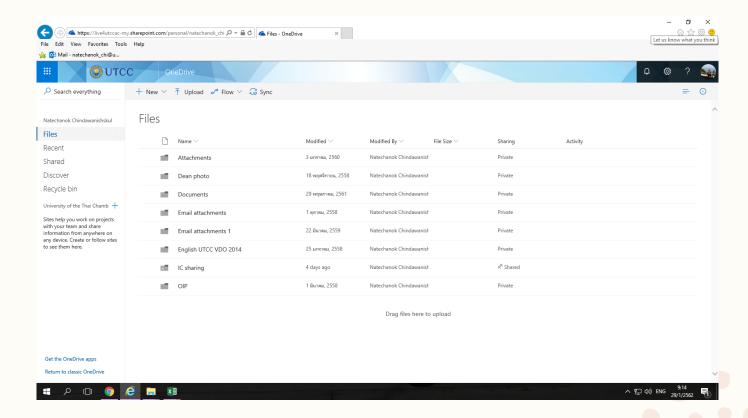

- The server computer is frequently changed the place and it causes the linked network problems. We often call the technician to reset it.
- Only can be used with computers in the office that have already been set up to see the computer server.
- It cannot be used at the same time with another users. If someone forgets to close the file, another person will not be able to open that file. We have to find out the person who is using the file and ask him to close it first.
- A file conflict occurs when it is modified between PC and McIntosh.

IC Number in IC SERVER (IC Data) before using OneDrive

When We Were Sharing Our Knowledge and Trying to Create the Share File in OneDrive

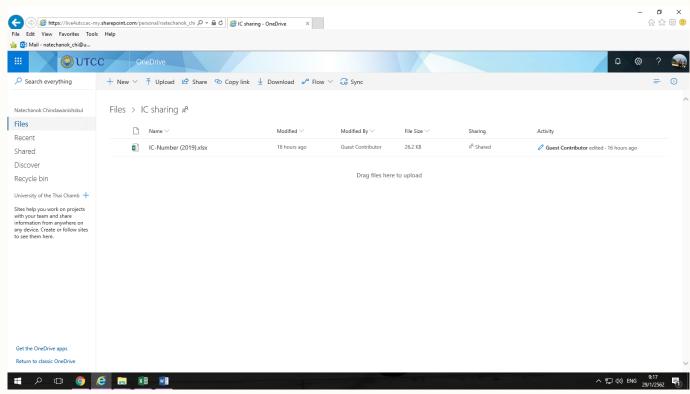

1. The creator creates a file in OneDrive

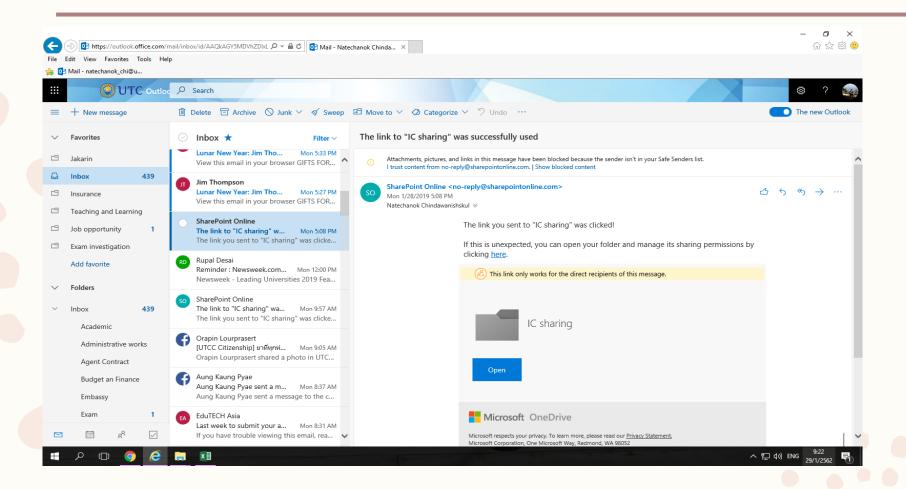

2. Share that file to some members

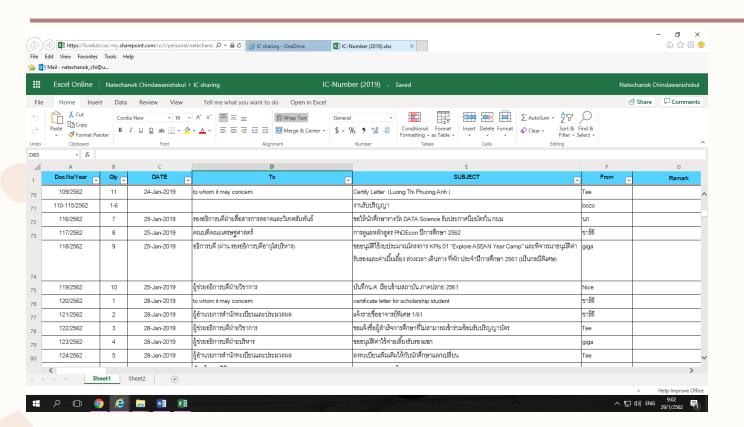

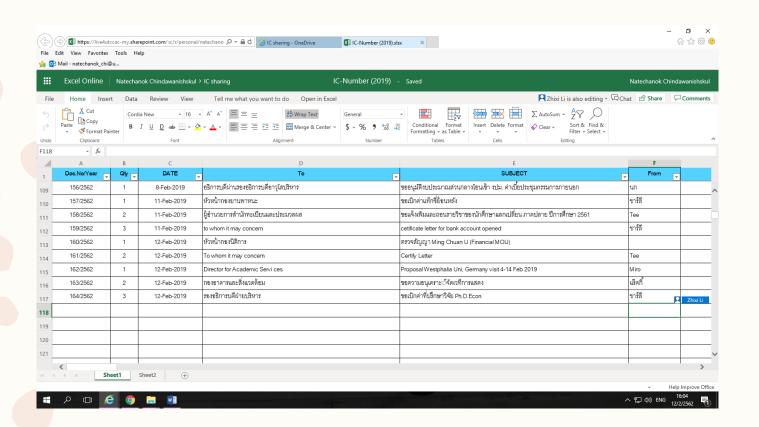

3. The System remind the creator to know the situation of file sharing.

4. One member test using it in OneDrive.

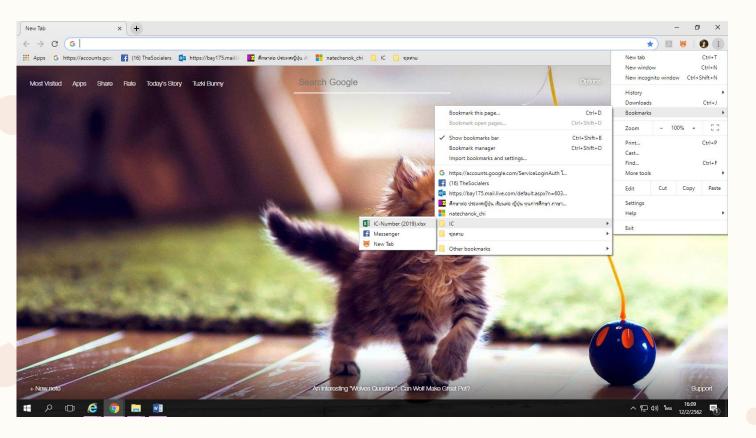

5. Two members are using it in OneDrive at the same time.

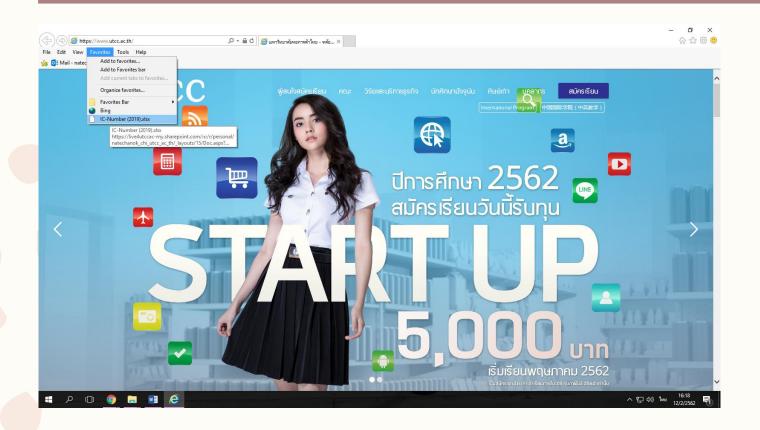

6. After sharing the file to all members, ask them to Bookmark in Chrome or Favorites in Internet Explorer for their easier usage.

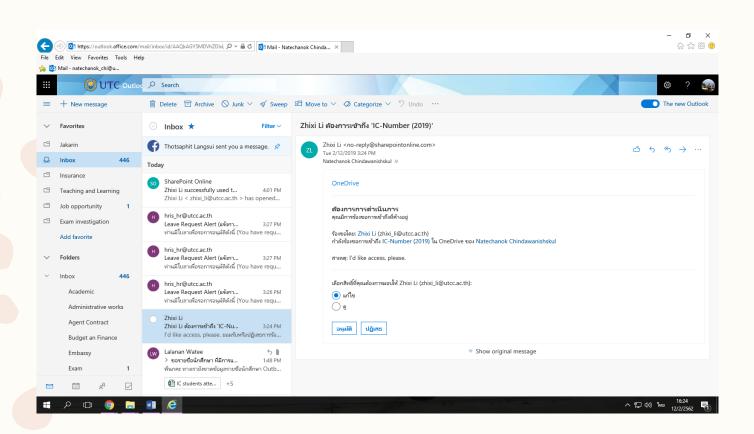

Bookmark in Chrome

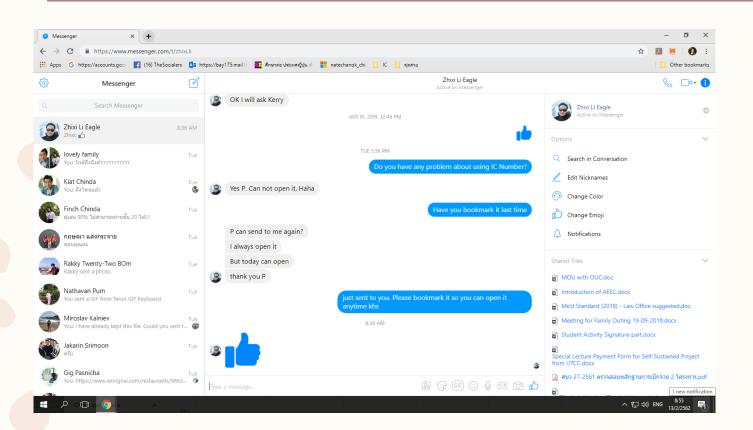

Favorites in Internet

7. The System alerted the creator to know the problems of the file sharing.

8. The creator communicated with the member and fixed the problem immediately.

The Advantages of Sharing Files in the OneDrive

- No need to use a computer as a server
- Can be used at anywhere that has internet
- Can be used at the same time by many persons
- Can see the other users and know who are they
- It immediately alerts the creator, if someone cannot open to the file.
- No conflict between using the file between PC and McIntosh and no need to save the file after edited.

Evaluation by the users how they like the new way of file sharing

Since IC Knowledge Management 2018 is about using IC Number in Cloud System, we would like to have your decision comparing your using this file between the one in IC DATA SERVER and the one sharing in OneDrive of the Clou

No.	Name	Which one you like better		Please give a	Suggestion (If any)	
		In IC DATA	In OneDrive	score 1-5 for KM this year		
1	Miroslav Kalniev		V	5		
2	Natechanok Chindawanishskul		/	5		pr.
3	Chawachon Lalitwajeewong		/	5		200
4	Anoulack Chanthavong			5		h
5	Passnicha Chuaplaiwech	gat.	V	5		SHAY
6	Naruporn Parchan		/	5	PRo.	વાયાના
7	Teeranan Ritrgam	Eylan .	V	5		Por.
8	Jutima Muangjuey	wex	/	5		Posas
9	Angsana Uratchatamas		V	4	พบเกาอาจาก	Sony
10	Thotsaphit Langsui		V	5		20/4/
11	Li Zhixi		·/	5		本
12	Nuttapon Kongma		Vo	5	_	72 The
13	Aung Kaung Pyae		V .	5		Hany
14	Imad Mohamed		V	5		200

For IC Members

If you have some files that will be useful to the others in our office, you can use this way to share you files instead of using IC DATA (Server).

For the other files in our Server, they will be shared via OneDrive later.
