**Hieu Trung Nguyen**  
**UTCC International 4th year student**

UTCC International newsletter features Hieu Trung Nguyen, UTCC International 3rd year student from Vietnam on its cover page. He's one of our top students as he has accomplished the Dean's List Award with excellent academic performance (GPA of 4.00) for three consecutive years. Here are some reflections on his university life at UTCC International.

**Q: Why did you choose UTCC International to fulfil your degree?**

**A:** There have been many reasons for me to originally apply to UTCC International. I have a lot of friends who enjoyed their time here, and the location is perfect. Classes here are taught completely differently, but I like it a lot better. The professors are all experts in their subjects and they actually teach you with practical examples, as well as guide you through practical group exercises. So, I actually feel I'm learning far more, in a far more supportive environment, as well as with freedom to explore and expose myself independently into the international environment.

**Q: How have you found your time here?**

**A:** My time at UTCC International has been great, the instructors and staff have always been approachable and offered fantastic guidance to ensure we were getting the most out of our time at the university. My experience here has opened more doors than I could have ever hoped for. There have been many exchange opportunities for me to go out and explore the world. Not for a second I doubted that it was one of the best decisions I have made.

**Q: Would you encourage prospective students to study with us and why?**

**A:** I would certainly encourage prospective students to study with UTCC International. This place is full of opportunities in every area possible and it is up to you what you do with it. At UTCC International we have a very diversified and truly global community where students from more than 30 countries all over the world are learning and sharing experiences together. I continue to be very happy with my choice of attending UTCC International as it has been a step in the right direction, and would highly recommend it to anyone. Every student will be pushed hard and expected to deliver a very high standard of work, but it will be a worthwhile experience.

Studying here together with international students from different countries such as Germany, Brazil, Argentina, France, Czech Republic, China, Korea, Columbia and with networking-based and interaction-based activities made me ready for the business environment with diverse culture. Besides being an exchange student in USIL, I had the chances to experience the lifestyle of Peruvians and traveling to the amazing, beautiful and stunning places which broadened my perception towards the potential business relationship between Asia and a Latin America country. Moreover, having an opportunity to visit one of the World's heritage, Machu Picchu, forged the sense of honor and privilege. # Alumni Corner

UTCC International alumni have gone on to a wide range of careers. This space is where we will pass along news, updates about them.

**Q: Could you tell us more about your educational and professional background?**

A: My name is May Myat Noe, Founder & Managing Director of Trend Myanmar (TM) Co., Ltd. and I am now 26. Before I talk about my business, let me briefly talk about my education background. Three years after my high school graduation in 2007, I got my bachelor degree majoring in English in 2010 and master's degree from UTCC academic year of 2015 was the second achievement of my higher education. During 2008 to 2015, I was actively volunteering for society community with CSR group of British Council, I took many English and Literature classes in American Center etc. I also worked and helped my family business which is pharmaceutical. My dad has been leading it for over 30 years already.

**Q: Could you tell us about your current business?**

A: In 2016, I have finally founded my own company which is called Trend Myanmar (TM) Co., Ltd. with my two business partners and we have got the Franchise of Thailand Shoes, Bags & Accessories Brand for women and kids called JELLY BUNNY from Jaspal Group (Thailand). We opened its very first store at Junction City Mall on 31st March 2017 as our first business venture. Now, Jelly Bunny becomes one of the leading female footwear brands in Yangon.

**Q: Why did you decide to pursue MBA program at UTCC?**

A: In 2015, to be honest, it was the hardest time of my life. I wanted to start by my own so bad with the dream of creating my own business which I didn't have any idea of it. I was completely lost. And I decided to study higher degree and looked around some qualified MBA schools in town. Among many of International Universities, I finally chose UTCC. At that time, I had totally no clue that it will become the best decisions I have ever made in my life. I met with great instructors, great friends and great people who mean a lots for me through the MBA program. Two study years with them, I had finally discovered about my true self and believed in myself again. What's so amazing is that my business plan of Jelly Bunny was my Individual Study Paper for my MBA graduation.
