### What did you get the most out of this trip?

From this spectacular journey what I got the most is that I experienced the lifestyles of Europeans and also got to know the effort they put to build and create great cities. Also, I was amazed by how they organize their cities to become very beautiful, attractive and glorious cities of the world. Being able to visit Paris, Santorini and Rome was truly an experience of a lifetime. Plus, I got to know more about my friends along the trip, we stayed together, helped one another and we became closer as a loving family. Most importantly, I got inspired to become a global citizen with global mindset in the future.

### How was your first impression on Europe?

Everything in Europe was extraordinarily wonderful. The architectures and the lifestyle of Europeans are totally different from ASEAN countries. I was able to experience different cultures of three different countries in three different cities. This was definitely one of the best moments of my life.

**Minchanok Sripartkittitana**

### What did you get the most out of this trip?

Throughout this amazing experience, what I got the most is that I discovered myself that I really want to travel more and explore as much as I can about different cultures, languages and I want to learn about the needs and problems of people around the world starting from Thailand first. Because even though it is quite challenging I would like to launch a business that can solve these problems and make life more comfortable and easier for the people around the world. In conclusion, it was such an amazing, fun and unforgettable journey with amazing people and it was a great opportunity for me to explore the world and myself more. This journey inspired me to make myself be ready for taking any opportunity in life and I also would like to acknowledge UTCC International School of Management for providing this extraordinary experience for us.

### How was your first impression on Europe?

It was my first time going to Europe and it's more than a dream come true and it is totally beyond my expectations. I went to see the Eiffel Tower in Paris and seeing the sunrise there really inspired me to study and work hard in order to be here again with my family. Also, I got the opportunity to visit Rome, Italy which is one of the places that I wanted to visit since I was young and I also visited the famous Colosseum which is one of the 7 wonders of the world. Moreover, in Santorini, Greece we stayed in an amazing place where we can see 360-degree view of the sea, the sky and the beautiful blue-white houses around there.
